- Vellore Documentary Film – Worked as an Assistant Director, contributing to script development and production coordination.
- National Service Scheme (NSS) – Actively participated in community service initiatives, social awareness campaigns, and volunteering programs.

## INTERESTS

- Programming Language
- UX/UI Designer

## EDUCATION

- **Bachelor of Computer Application** 2022- 2025  
*Vellore Institute of Technology*  
CGPA: 7.81
- **HSC** 2021 - 2022  
*Ramakrishna Matric Hr Sec School Arcot, Ranipet.*  
percentage: 70%

## TECHNICAL SKILLS

- Language: Java, C, C++
- Database Management: SQL
- Web Development: Html, CSS
- UX/UI Desiggn

## PROJECTS

- **Freelance UI/UX Designer – Karaoke App Prototype:**  
*Designed an interactive karaoke application prototype using Figma, focusing on a user-friendly and visually engaging interface. Developed intuitive navigation, lyrics display, and customizable themes to enhance the user experience. Ensured a seamless and aesthetically appealing design while aligning with client requirements.*
- **Stock maintenance system:**  
*Design a stock maintenance database with tables for products, inventory, suppliers, orders, and customers. Use stored procedures for business logic, views for customized data access, and indexes for optimized query performance. Implement regular stock checks for efficient management.*
- **Crowd funding Application:**  
*Crowdfunding for individuals facing medical emergencies who are unable to pay their medical bills, specifically targeting those who are financially weak. The app will allow users to create fundraising campaigns for medical emergencies, providing a platform for people to donate money to those in need. It will include features such as campaign creation, donation processing, user authentication, and campaign sharing.*
